SHOES &
ACCESSORIES

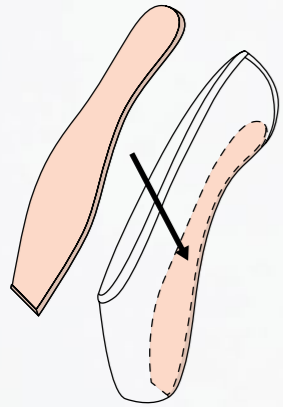

POINTE SHOES

GRISHKO® offers the widest variety of pointe shoes on the market. The number of stock model variations (model, shank, size, width, strength) exceeds 20 000, and this number doesn't include the additional technologies, colors, and individual orders with different adjustments!

Often dancers use one particular model of pointe shoes in different shanks depending on the performances they will partake in. And sometimes, they require slight adjustments to their stock model. To make this easier for our customers, we have added a number of technologies and options to fully customize fit, look and even the function of the pointe shoe.

CLASSIC SHANK CONSTRUCTION

Unique fully hand crafted production based on all natural materials. The variable shank strengths and breakdown during the lifespan of the shoe keep ones foot well trained and help to prevent injuries.

CLASSIC, BUT DIFFERENT

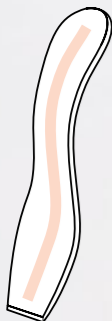

CLASSIC
Classic strong shank preferred by professionals. Good for advanced en-pointe elements.

EASY ROLL-THROUGH
Easier roll-through demi-pointe to an en-pointe position for extra articulation of the metatarsal.

READY-TO-WEAR

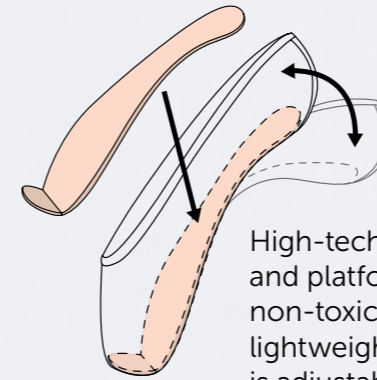

FLEX
Flexible shank, preferable for demi-pointe elements and contemporary in addition to classic en-pointe elements.

READY-TO-WEAR

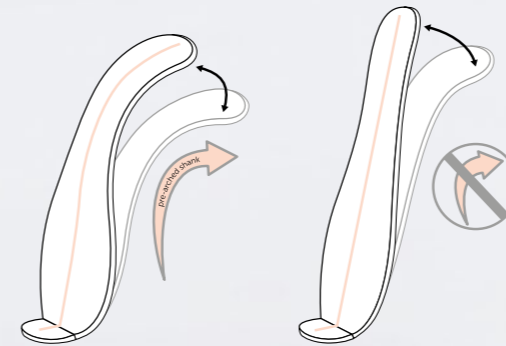

INNOVATIVE SHANK CONSTRUCTION

Flexible and supportive shanks suitable for any technique level. Long lasting performance.

High-tech cast-in insole and platform, made of non-toxic thermoformable lightweight material, is adjustable to any foot arch and muscle strength.

Unique construction using high-tech materials provides longer life span.

READY-TO-WEAR

Do not hammer

Soften the box with fingers

Do not break the shank

ATTENTION!
INNOVATIVE POINTE SHOE MODELS ARE READY-TO-WEAR.
BREAKING IN THE SHANK WILL CAUSE DAMAGE OF THE SHOES.

HOW TO CHOOSE

The fitter should first choose the last according to the foot shape and toe configuration. And next, consider box, platform, vamp and other features.

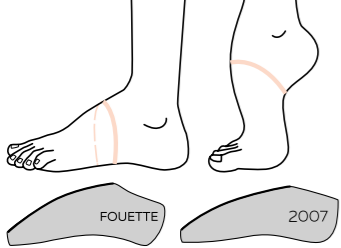

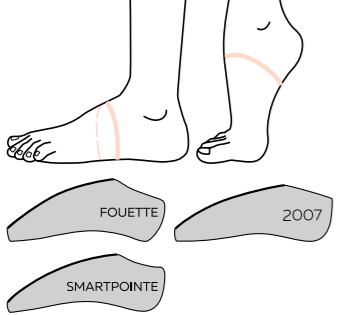

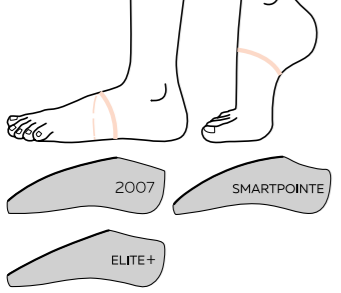

GRISHKO® offers the widest variety of stock models to fit any foot.

Our pointe shoes are based on 4 different lasts (forms):

2007, Fouette, SmartPointe and Elite+.

Each last is designed to suit a particular foot and toe shape configuration. It is important to feature all four lasts for the perfect fitting experience.

*The above chart is recommended, but non-regulatory. Sometimes the best suitable pair is based on compression and development of the dancer's foot. And can be found within different GRISHKO® models.

TECHNOLOGY

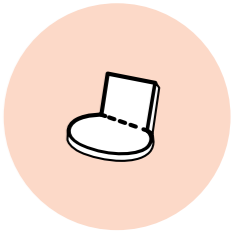

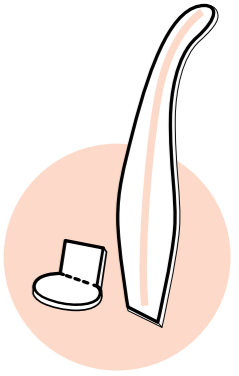

PRO

SILENCE

Innovative damping compound of "Silent knot" technology eliminates the sound of pointe shoes on any surface.

- PRO technology in machine-stitched models (Maya I, 3007, Nova, etc.) is a combination of "Silent knot" and silent insole. The insole is made of sound absorbing material, which feels slightly softer compared to classic construction.
- PRO in hand-stitched models (Fouette, Triumph): with "Silent knot" has no changes to the shank flexibility.

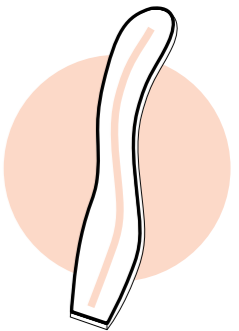

FLEX

FLEXIBILITY

- Flexible shank feels like ready-to wear, as it adapts to the arch.
- Easier to bend the shank.
- Additional comfort during roll-through to demi-pointe and en-pointe.
- Suitable for beginners, as they may need more flexibility in the shank to train their foot properly. Flex shanks are often used as first pointe shoes after the demi-pointe shoes. Please, ensure you take into consideration the dancer's arch and strength.

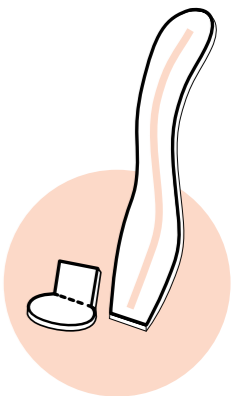

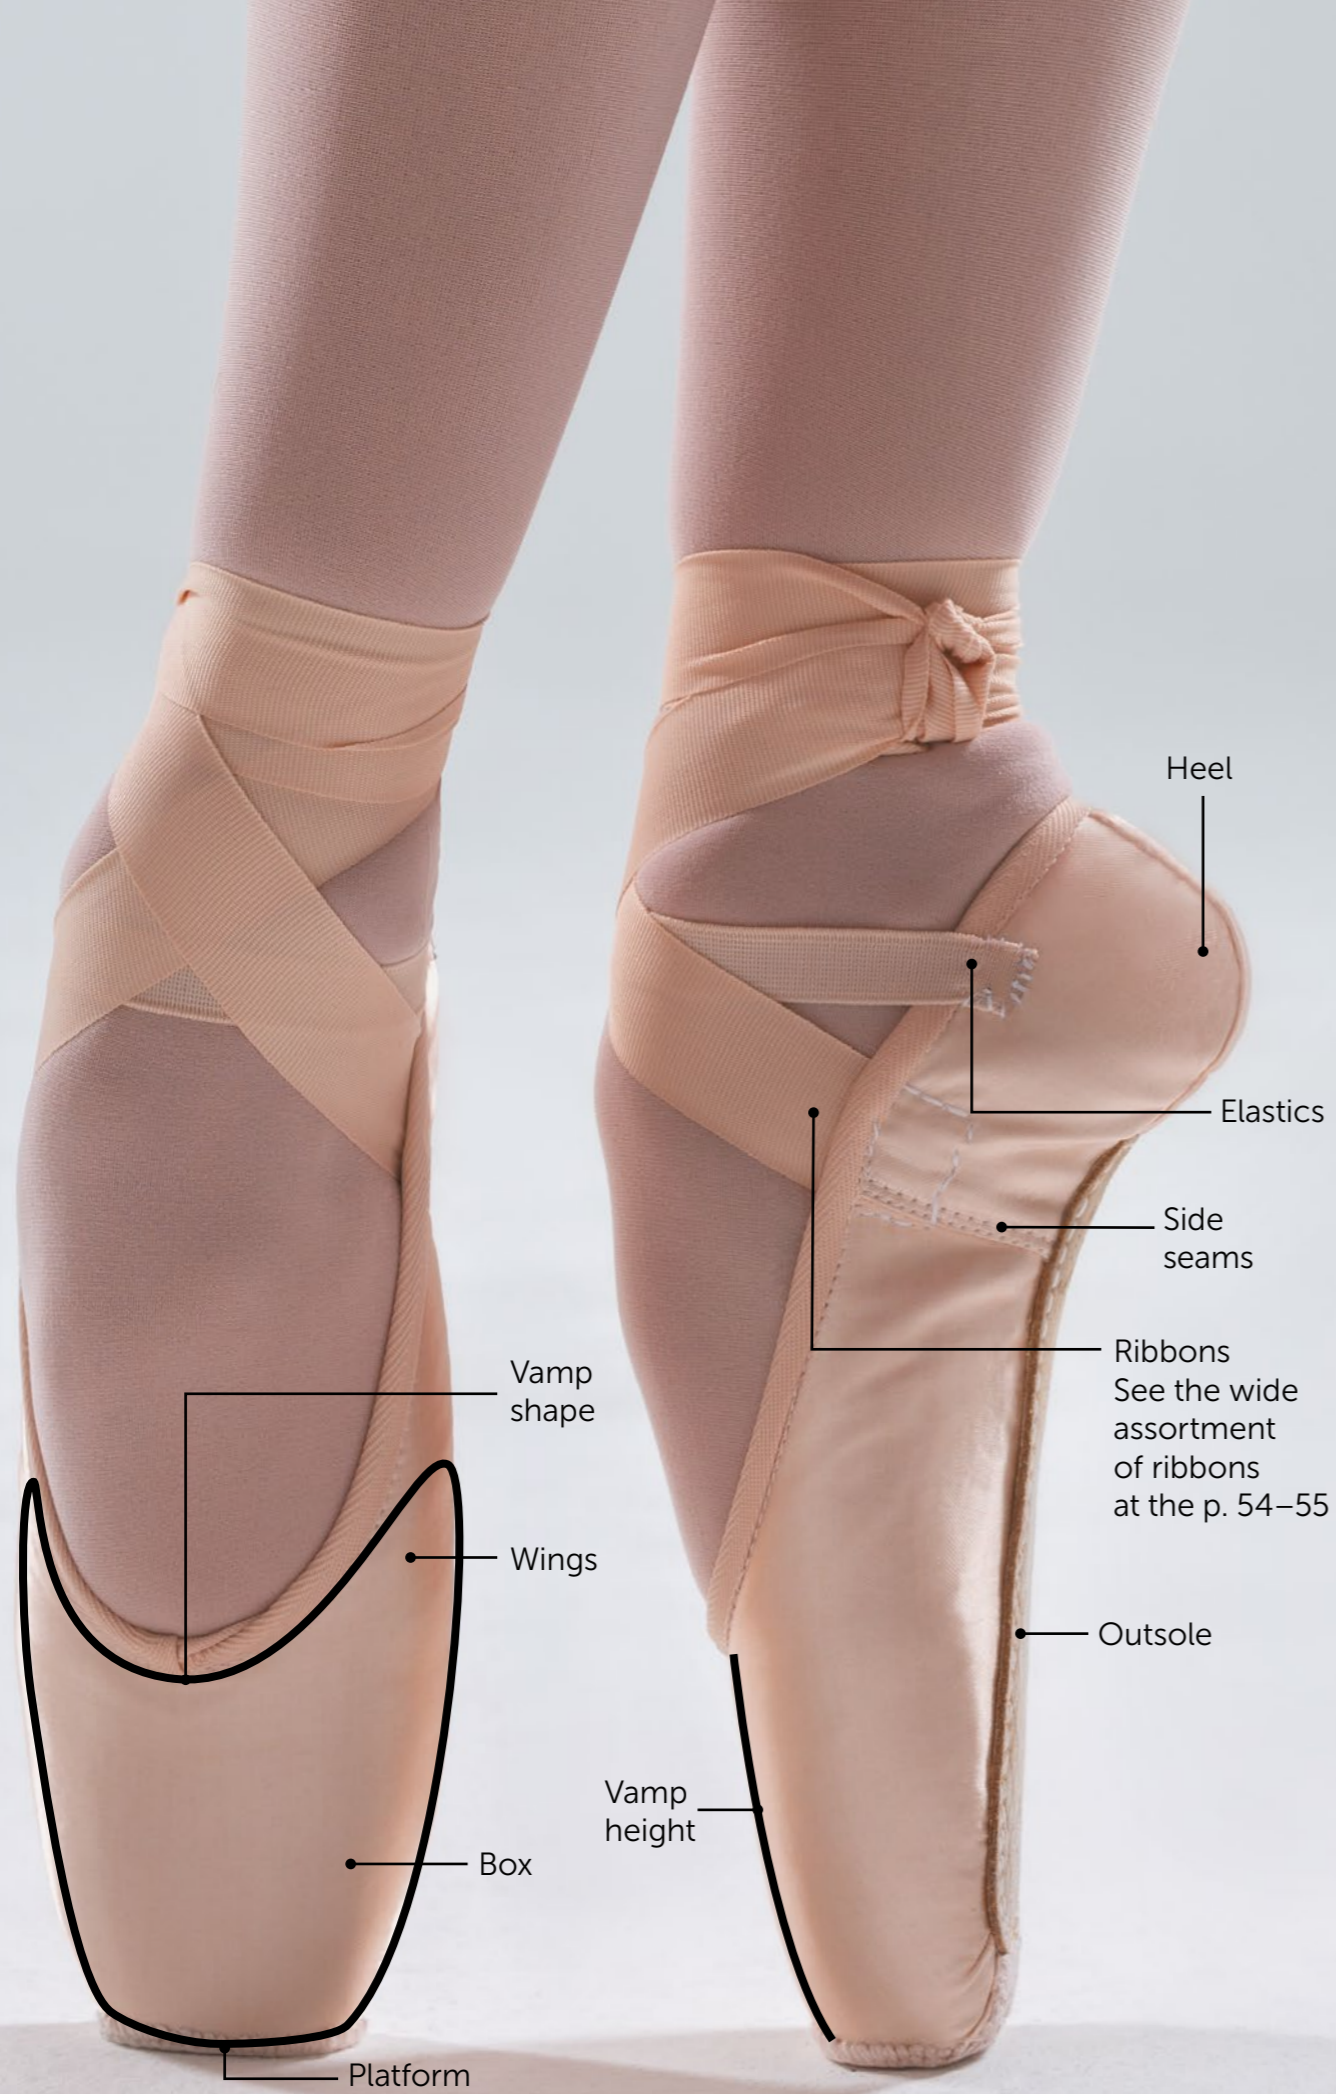

PRO FLEX

COMBINATION OF BOTH

For those who prefer only the best, we offer two technologies together: PRO to reduce the pointe shoe sound and FLEX to follow one's arch and offer flexible comfort and control of roll-through demi-pointe.

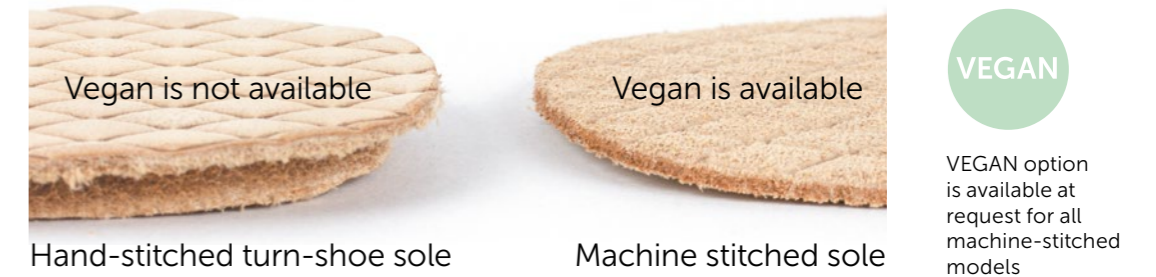

BOX

The box of all GRISHKO® pointe shoes is made of natural materials, that makes it breathable and safe for your skin. Jute, nettle, and cotton that are used for fabrics production, these natural materials work to keep the ballerinas' foot healthy.

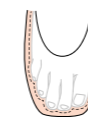

OUT-SOLE

The outsole of all GRISHKO® pointe shoes is made of high quality natural leather which gives additional flexibility to the foot movements owing to the leather properties.

CLASSIC GLUE

(CLASSIC SMART)

Classic glue is made of natural materials. The composition has adaptive characteristics. When ballerina puts on the shoes, under the pressure in addition to the heat and sweat, the form of the shoe adapts to the form of foot.

MIRACLE GLUE

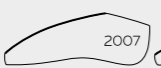

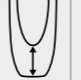

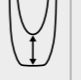

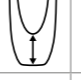

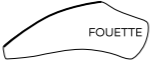

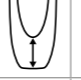

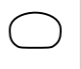

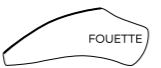

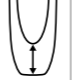

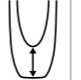

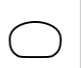

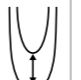

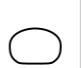

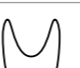

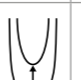

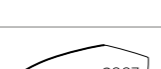

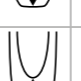

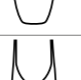

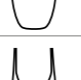

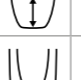

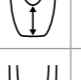

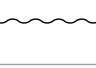

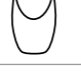

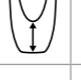

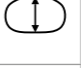

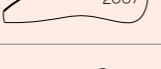

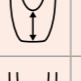

(LIGHTWEIGHT ELASTIC)

Innovative glue with memory effect, it adapts to the feet form but stays flexible and resilient during the dance. You can adapt the box form to your feet shape and profile with fingers.

PREPARATORY POINTE SHOES

Girls between the ages of 4–10 years wear soft ballet slippers to class. Generally, the transition to Pointe shoes is perceived to be painful for children.

The GRISHKO® Company specialists have developed a unique range of children’s preparatory pointe shoes, which help children’s feet to adapt gradually, step by step, without pain.

3 STEPS TO A DREAM

This line includes 3 models:

1. EXAM
2. ALICE
3. NOVICE

COLORS

- Ballet Pink
- Dark Nude

BOTH CHILDREN AND ADULTS CAN DANCE WEARING PREPARATORY POINTE SHOES

Exam

Last type: 2007, Elite+ (at request)
 Shape: Slightly tapered
 Vamp: U-cut, Medium
 Sole: Machine-stitched

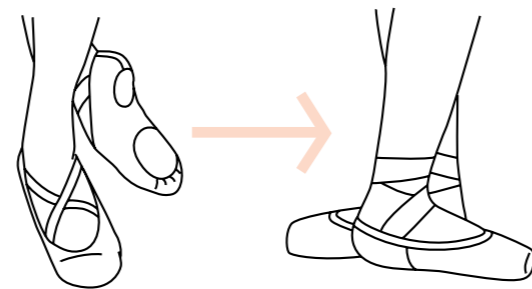

SHANKLESS
 PRE-POINTE.

Helps to adapt the feet to the feeling of pointe shoes.

Exam

0512 Last type: 2007 **0512E** Last type: Elite+ (at request)
 Allows the young dancer to get used to the shape and confinement of the toe box, with no stiffening materials in the sole. With 1/3 box length, this shoe will train the dancers foot properly by strengthening the forefoot of the dancer.

Size: 0,5 – 6,5
 Shank: **No shank**
 Width: X – XXXX
 Box: 1/3
 With elastic side running or elastic drawstring.

Alice

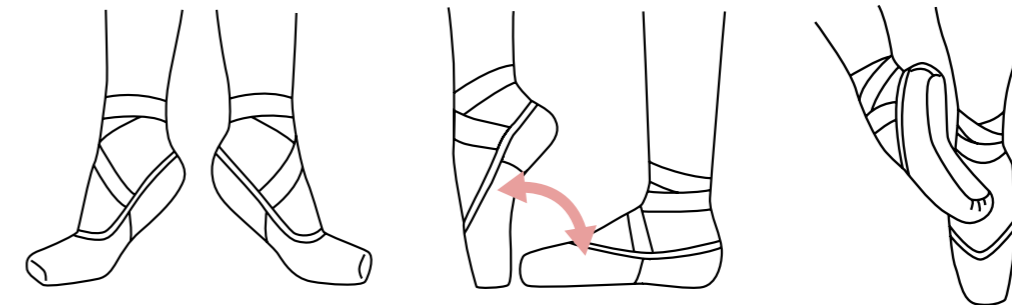

Last type: 2007, Elite (at request)
 Shape: Slightly tapered, Soft box
 Platform: Medium
 Vamp: U-cut, Medium
 Sole: Machine-stitched

Trains the arch of the foot. Transitional model between Exam and Novice. Ideal for pre-pointe classes at the barre.

Alice

0526 Last type: 2007 **0526E** Last type: Elite+ (at request)
 A unique construction of the 1/2 box length will support a dancer at the barre while rising en pointe, slight but efficient support is created by the flexible super soft or soft shank. Flannel like insole.

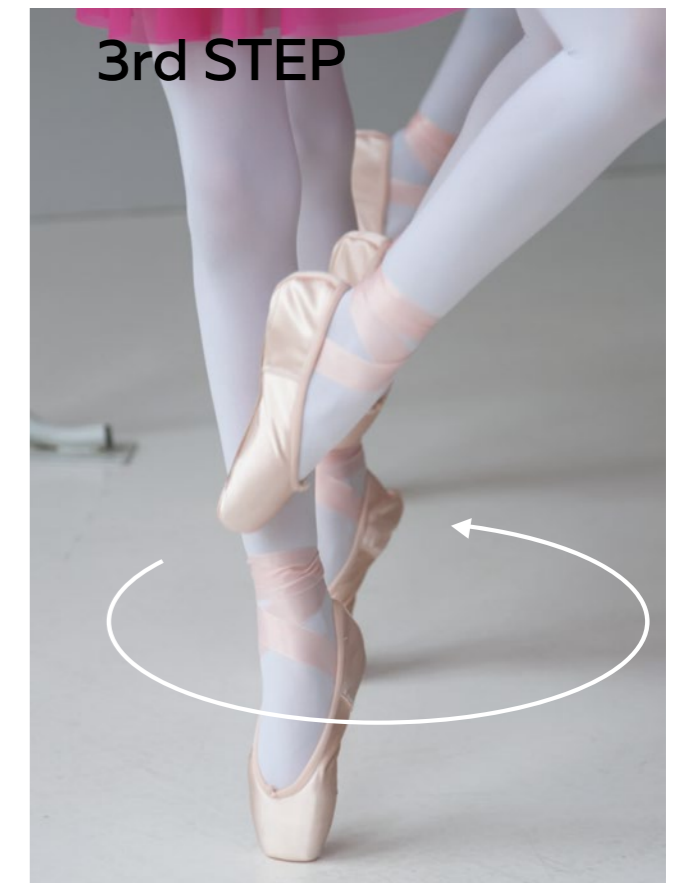

Size: 0,5 – 6,5
 Shank: SS, S
 Width: X – XXXX
 Box: 1/2
 With elastic drawstring.

Novice

Last type: 2007
 Shape: Slightly tapered
 Platform: Medium
 Vamp: U-cut, Medium
 Sole: Machine-stitched

Ideal as the first pointe shoe for advancing beginners. Easy roll-through and softer box.

Novice

0511
 Novice is the “First Pointe Shoe” for advancing beginners. Softer than other models, yet supportive. This model features a softer 2/3 box length, and very pliable shanks. Allows easily roll-through demi pointe and perform center exercises.

Size: 2 – 3
 Shank: SS, S
 Width: X – XXXXX
 Box: 2/3
 With elastic drawstring.

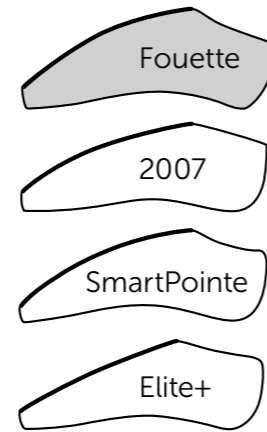

Sizes: 3,5 – 7,5
 Shank: SS, S, M

Pointe shoes based on Fouette last

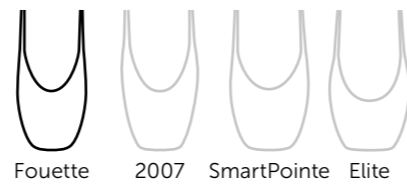

Fouette last is developed with consideration of anatomic features of the high arch and fuller tapered foot. Usually, it's Egyptian or Greek type of foot, but in wider width XXXX – XXXXX can be suitable for Roman type. Fouette is the implementation of a classic pointe shoe form – tapered and elegant.

ELASTICATED BINDING

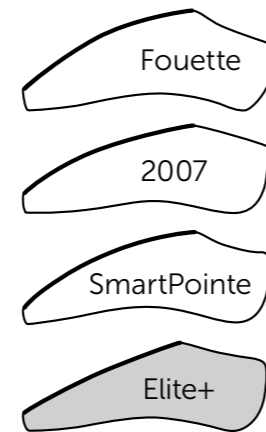

Pointe shoes based on Elite+ last

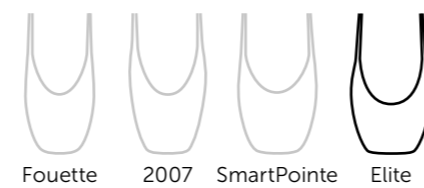

Pointe shoes should always be properly fit, ill fitted shoes can lead to bruising and injuries. Roman type foot is not so common among ballet dancers, and unfortunately, they often wear shoes that were created for other foot shapes. Elite was developed for feet with low to medium arch. Elite last will fit square wide feet to perfection preventing discomfort of a shoe that may be too tapered or too high in the crown for this particular foot shape.

LYRICAL SHOES

LYRICAL / GYMNASTICS HALF-SOLES
GRISHKO® Gymnastics half-soles, or as we also refer to them as "turner shoes" are used by the Rhythmic Gymnastics Olympic team of Russian Federation. These shoes have been tested and perfected over the years by some of the top gymnasts in the world.

MATERIALS AND PROPERTIES

GENUINE LEATHER

Used to make the sole and the upper of the shoe.
Breathable material. Adapts to the foot shape.

MICROFIBER (artificial leather)

Provides sufficient floor grip.
Allows the skin to breathe.
Long-lasting material.

CANVAS (100% cotton)

A breathable and hypo-allergenic type of natural fabric which can be easily dyed.

CALICO (100% cotton)

An extra thin type of fabric for proper fit.

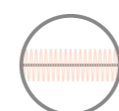

TERRY FABRIC (100% cotton)

Ensures dry skin and protects the foot.

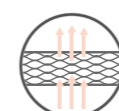

NON-SLIP SILICON

The shoes strings are covered with special non-slip silicon to ensure that the shoes fit perfectly even when performing complex movements.

FLAT SEAM

The sole and the upper are sewn together in such a way as to ensure that the seam is flat and even highly sensitive foot is guaranteed exceptional comfort.

ELASTIC YARN THREAD (Polyamide)

Special type of elastic yarn used for sewing ensures that the shoe perfectly matches the shape of the foot.

ELASTICATED BINDING

Due to elasticated binding the shoe securely hugs the foot and offers considerable comfort.

Alina

100% cotton lining allows the skin to breathe.
The only model which is produced both in leather and in dense 100% cotton canvas. Elastics strings with silicon strips ensure a perfect fit. Genuine leather ensures that the shoe securely hugs the foot and adapts to its shape.

 Sole: faux leather: 50% nylon, 50% PU
 Size:
 S – for pointe shoes size 2,5 – 3
 M – for pointe shoes size 3,5 – 4,5
 L – for pointe shoes size 5 – 6
 XL – for pointe shoes size 6,5 – 8

Platform caps

0555
 Material: Split Leather
 Size: S, M

Anti-slip platform caps

0556
 Material: Split Leather
 Size: one size

8-cut anti-slip platform caps

0557
 Material: Split Leather
 Size: one size

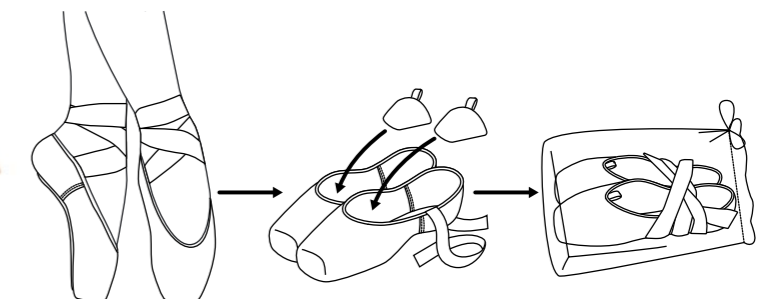

Pointe shoe dryers

0559
 Color: ● Pink
 Filler: Silica Gel

This is something every fitter should offer with every pair of pointe shoes. These little helpers work wonders, eliminating the smell and pulling moisture right out of used pointe shoes. Our dryers add at least 30% lifespan to the box of your dancers pointe shoes. They must be replaced every three months for best results.

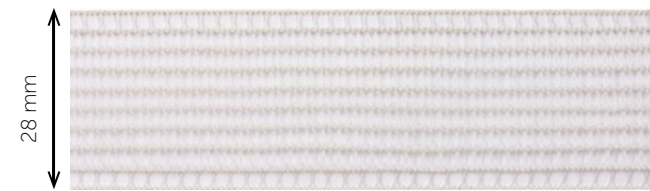

----- ✂️ DIY Adjust the form of caps to the required size with the help of scissors.

Transparent mesh elastic

0002/2
Width: 28 mm
Pack of 1 m
Color: ○ White

0002/2R
Roll of 25 m

Mesh elastic for those who prefer flexible fixing of the arch and ankle. Choose between transparent and nude to match the color of pointe shoes and tights.

Mesh elastic

0002/3
Width: 25 mm
Pack of 1 m
Color: ● Ballet Pink

0002/3R
Roll of 25 m

Satin ribbon with pre-sewn elastic

0510/4
Width: 24 mm
Pack of 2.2 m (4 x 60 cm)
Color: ● Ballet Pink

Combine the flexibility of elastic or mesh and classic look of the ribbons. Easy to put on/off and guarantees a tidy look without knots.

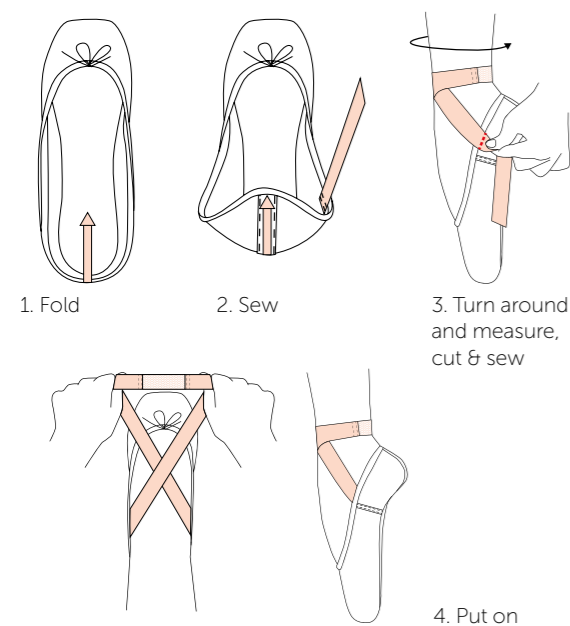

Satin ribbon with pre-sewn mesh elastic

0510/3
Width: 24 mm
Pack of 2.2 m (4 x 60 cm)
Color: ● Ballet Pink

How to use ribbons with elastic

Ribbons with elastic can be used as usual ribbons, but we recommend to try also a different method:

Elastic

0002/1
Width: 13 mm
Pack of 1 m

0002/1R
Roll of 20 m

Color: ● Ballet Pink ○ White ● Black ● Tan

The best option for soft ballet shoes. 4 different colors to match any costume.

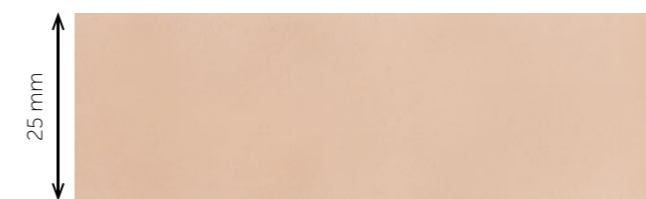

ALL PERFECTLY MATCHED TO THE COLOR OF YOUR SHOES

Elasticized ribbon

TOP SELLER

0510/8
Width: 25 mm
Pack of 2 m
Color: ● Ballet Pink

0510/8R
Roll of 50 m

The elasticized ribbon feels very comfortable while dancing. Soft and matte surface is invisible on tights and skin.

Satin ribbon with silicone

0002/6
Width: 25 mm
Pack of 2 m
Color: ● Ballet Pink

0002/6R
Roll of 50 m

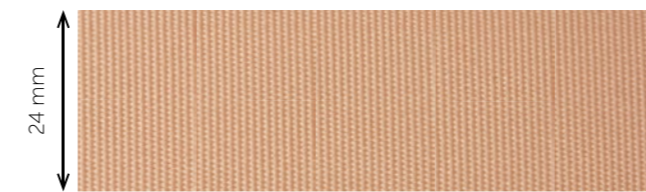

Satin ribbon with silicone is very comfortable for dance without tights as silicone securely fixes on the naked skin.

Cotton ribbon

0510/1
Width: 24 mm
Pack of 2 m
Color: ● Ballet Pink

0510/1R
Roll of 50 m

Natural cotton – durable and breathable material. It's especially comfortable for beginners – the ribbons don't slide. Grants classic look due to matte surface.

Satin ribbon

TOP SELLER

0510/7
Width: 24 mm
Pack of 2 m
Color: ● Ballet Pink ○ White ● Black

0510/7R
Roll of 50 m

Satin ribbon of white, black, ballet pink colors to match pointe shoes. Classic look with light sheer.

HOW TO CHOOSE

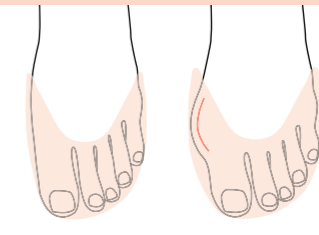

REMEMBER!

No space should be left between the pointe shoe inserts and toes, and inserts should always cover bunions. The comfort in the box depends on correctly fitted pointe shoes and pads.

Short toes /
No valgus

Long toes /
Valgus

Sensitive feet

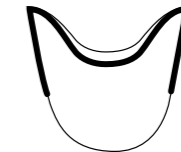

SILICONE TOE PADS

Made of medical silicone to protect foot: thick in the bottom, thin on the toes.

Art. 1009A

Art. 1009B

Art. 1006

PERFORATED SILICONE TOE PADS

Microperforation makes these pads breathable.

Art. 1010A

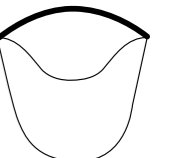

Art. 1010B

GEL TOE PADS

Covered by natural cotton, more protective compared to silicone pads, but can add +0.5 to the width of pointe shoes.

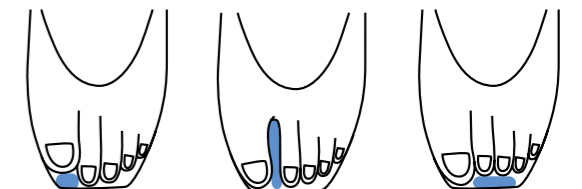

Art. 1008/2

Art. 1008/1

MINI SILICONE TOE PADS

Can be used on their own or in addition to any other pads above. Use one or two mini silicone pads to separate toes when needed, and remember they have different sizes that allow ballerina to combine them different ways. Strongly recommended if there is large space between toes

Bag for hoops

Cosmetics bag

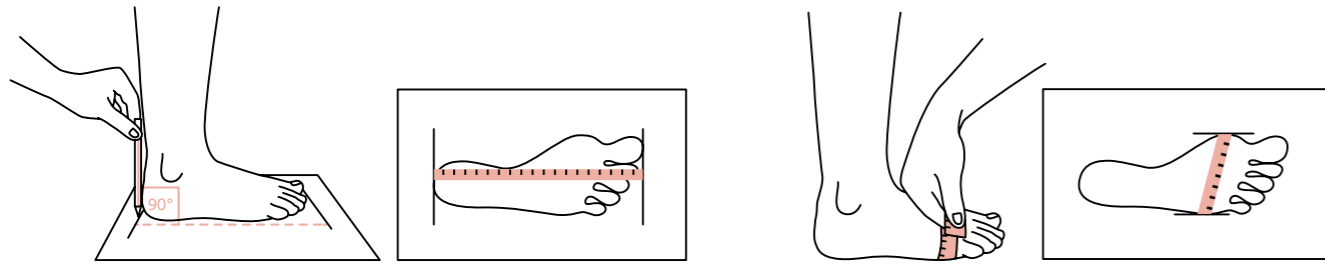

03612
 Size: 15 cm
 Material: satin
 Color: ○ White ● Black ● Pink ● Blue ● Red ● Violet ● Bordeaux ● Yellow ● Green

HOW TO FIND YOUR RIGHT SIZE

How to measure and identify GRISHKO® pointe shoe size:

- 1) Take a piece of A4 paper and put ballerinas' foot on it, draw the contour of the foot with a pencil; the pencil should be held under an angle of 90° (perpendicularly). Draw and measure the left and right foot, as they can differ.
- 2) Measure the distance from the heel to the endpoint of the toe (in mm);
- 3) Find the result of the measurements in the table. In case the measurement in between two sizes, we recommend taking a bigger one, as pads and tights also have a certain thickness.

How to choose the width

GRISHKO® offers pointe shoes in 5 different widths:

X – for narrow feet

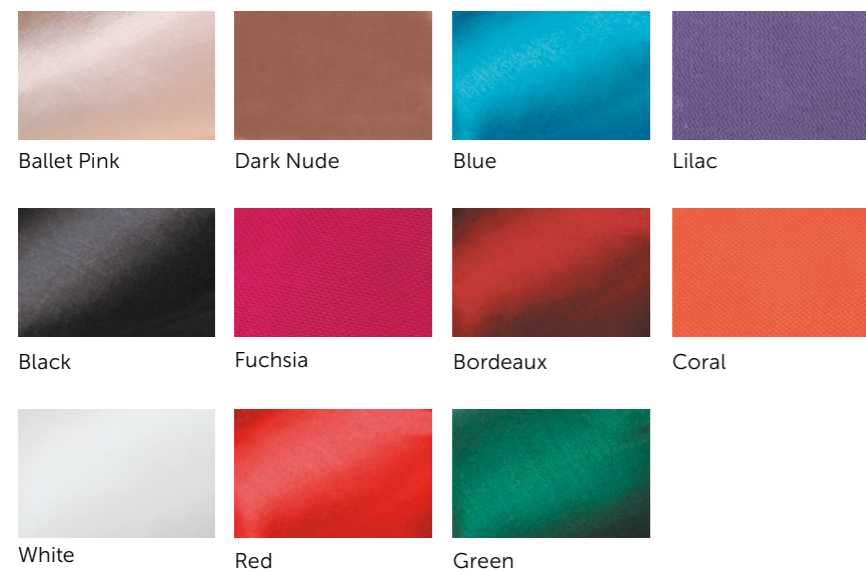

XX and XXX – for medium feet

XXXX – for wide feet

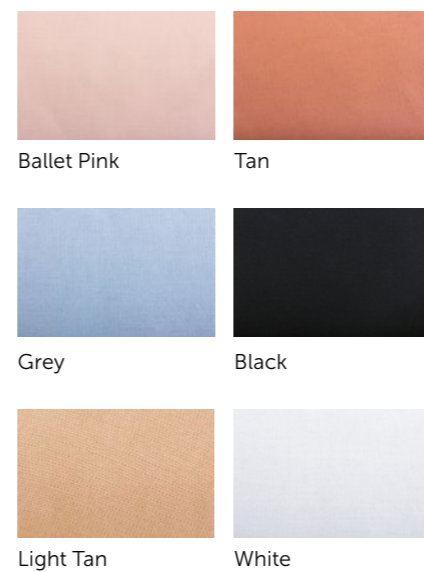

XXXXX-XXXXXX – for super wide feet

Measure your foot at its widest place (where the bunions are) to identify the required width the pointe shoes. Relate the result to the table data and identify your width. It is recommended to choose a width that provides a firm and painless fit. If you notice wrinkles on the fabric and gaps between the shoe and the foot, it means you need less width.
