CELEBRATING 35 YEARS OF EXCELLENCE

For 35 remarkable years, Grishko has been at the forefront of the dance world, providing exquisite dancewear and pointe shoes of impeccable quality and style. Our legacy is built on a foundation of artistry, innovation, and the enduring pursuit of excellence. Thank you for making us part of your dance journey. Here's to 35 more years of grace and performance.

Grishko: Pioneers in the World of Ballet

Today, Grishko stands as a legendary brand, renowned for its exquisite pointe shoes and apparel, representing unparalleled quality for the last 35 years. Rooted in the rich traditions of classical ballet and driven by cutting-edge innovation, we offer a diverse range of over 20 distinct pointe shoe models, establishing ourselves as the most versatile choice in the market. Founded in 1987 by the living legend of the Textile and Light industry, Nikolay Grishko, our brand is a testament to entrepreneurial excellence. Inspired by his wife, Tamara Grishko, a distinguished dancer and his muse, Mr. Grishko's vision has left an undeniable mark on the ballet world.

At the heart of the ballet community, our brand enjoys the adoration of ballet icons worldwide, with numerous highly esteemed ballet schools choosing our uniforms with garments and shoes. We proudly serve as official sponsors for the world's most prestigious dance competitions, including the Youth Grand Prix, World Ballet Competition and Universal Ballet Competition. Thousands of contestants, choreographers, academies, and teachers encounter our products at these events.

INTRODUCING THE «TAMARA» — A TRIBUTE TO TIMELESS ELEGANCE

In celebration of our anniversary season, we are delighted to unveil our latest masterpiece — the “Tamara” model. Named after the beloved Mrs. Tamara Grishko, this extraordinary creation is a heartfelt tribute to the cherished wife of our founder, Mr. Nikolay Grishko.

The “Tamara” model is crafted on our renowned Fouetté last, combining classic grace with cutting-edge innovation. It incorporates all the enhancements that have elevated our new models to unprecedented heights of performance and comfort. This release is more than just a shoe; it’s a profound testament to love and devotion. Mr. Grishko patiently awaited the perfect moment to honor his beloved wife with a shoe that bears her name. And now, the wait is over.

Prepare to be captivated by the allure of the “Tamara.” It’s not just a shoe; it’s a declaration of love, a symbol of excellence, and a true game-changer. Get ready for the “Tamara” — it’s poised to make a resounding impact on the dance world.”

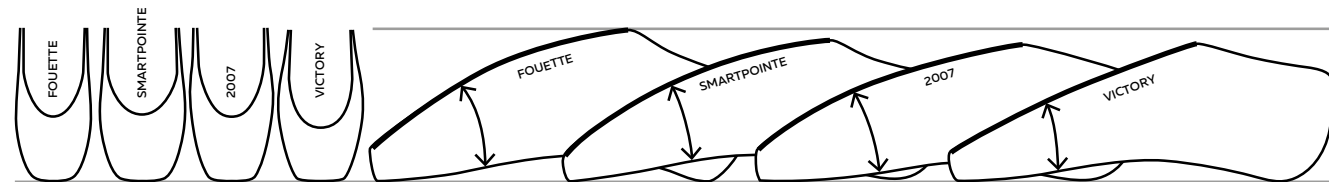

POINTE SHOES

GRISHKO® offers the widest variety of pointe shoes on the market. The number of stock model variations (model, shank, size, width, strength) exceeds 20000, and this number doesn't include the additional technologies, colors, and individual orders with different adjustments!

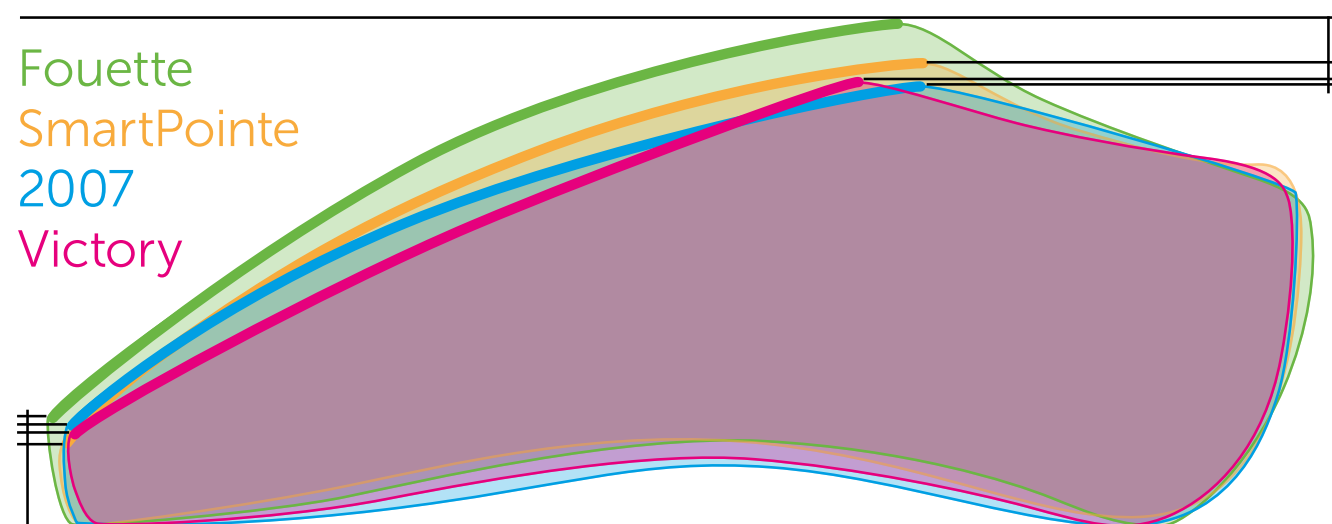

GRISHKO® POINTE SHOE SYSTEM

We have developed a comprehensive system of pointe shoes based upon the lasts. Each last is made to fit different foot shapes. Most lasts have multiple models that differ in the details: the depth of the vamp, the height of the sides and heel, the material of the insoles, etc. But the internal space of models created on the same last remains the same. Initially we begin with the physical parameters of the foot, so that our pointe shoes are anatomically correct AND safe for your feet.

FOUETTE SMARTPOINTE 2007 VICTORY

The last is the main attribute, which creates the inner form of pointe shoes. It is the base for proper support, health, and comfort. GRISHKO® pointe shoes are the most customized in the world. All of our pointe shoes are based on four unique lasts: Fouette, 2007, SmartPointe and Victory. Each last accommodates different configurations of foot and toe shapes.

HOW TO CHOOSE

The fitter should first choose the last according to the foot shape and toe configuration.

And next, consider box, platform, vamp and other features.

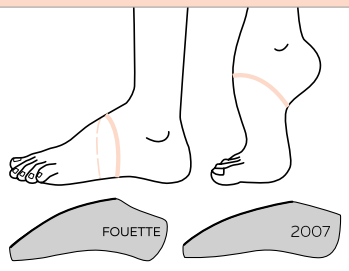

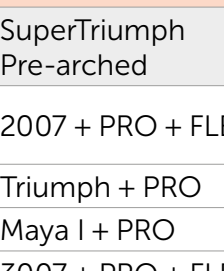

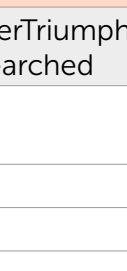

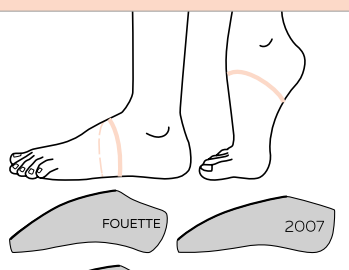

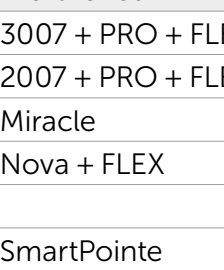

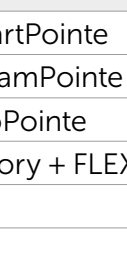

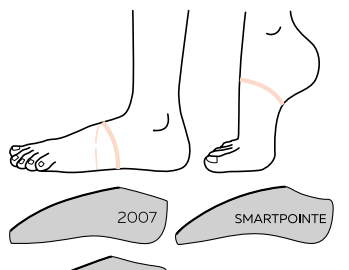

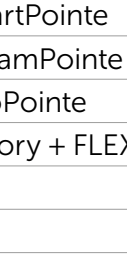

GRISHKO® offers the widest variety of stock models to fit any foot.

Our pointe shoes are based on 4 different lasts (forms): Fouette, SmartPointe, 2007 and Victory.

Each last is designed to suit a particular foot and toe shape configuration.

It is important to feature all four lasts for the perfect fitting experience.

Innovative pointe shoes

*The above chart is recommended, but non-regulatory. Sometimes the best suitable pair is based on compression and development of the dancer's foot. And can be found within different GRISHKO® models.

TECHNOLOGY

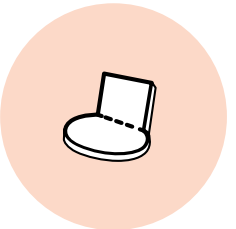

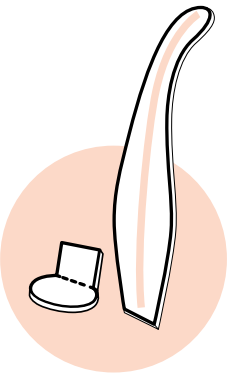

PRO

SILENCE

Innovative dampening compound of "Silent knot" technology eliminates the sound of pointe shoes on any surface.

- PRO technology in machine-stitched models (Maya I, 3007, Nova, etc.) is a combination of "Silent knot" and silent insole. The insole is made of sound absorbing material, which feels slightly softer compared to classic construction.
- PRO in hand-stitched models (Fouette, Triumph): with "Silent knot" has no changes to the shank flexibility.

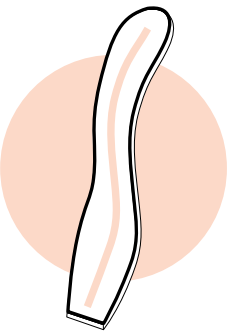

FLEX

FLEXIBILITY

- Flexible shank feels like ready-to wear, as it adapts to the arch.
- Easier to bend the shank.
- Additional comfort during roll-through to demi-pointe and en-pointe.
- Suitable for all levels from beginners to professionals. Flex shanks are often used as first pointe shoes after the demi-pointe shoes. Please, ensure you take into consideration the dancer's arch and strength.

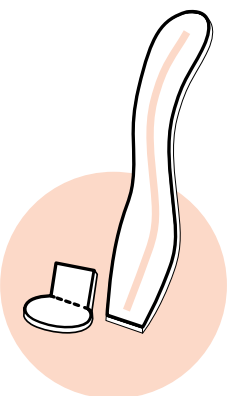

PRO FLEX

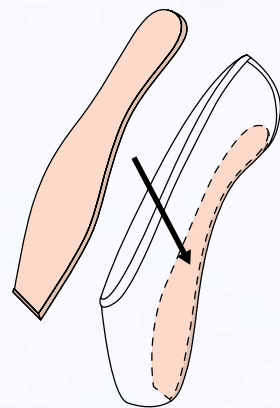

COMBINATION OF BOTH

For those who prefer only the best, we offer two technologies together: PRO to reduce the pointe shoe sound and FLEX to follow one's arch and offer flexible comfort and control of roll-through demi-pointe.

CLASSIC SHANK CONSTRUCTION

Unique fully hand crafted production based on all natural materials. The variable shank strengths and breakdown during the lifespan of the shoe keep ones foot well trained and help to prevent injuries.

CLASSIC, BUT DIFFERENT

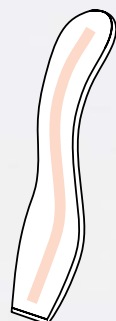

CLASSIC
Classic strong shank preferred by professionals. Good for advanced en-pointe elements.

EASY ROLL-THROUGH
Easier roll-through demi-pointe to an en-pointe position for extra articulation of the metatarsal.

READY-TO-WEAR

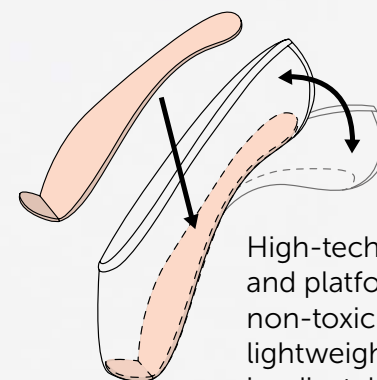

FLEX
Flexible shank, preferable for demi-pointe elements and contemporary in addition to classic en-pointe elements.

READY-TO-WEAR

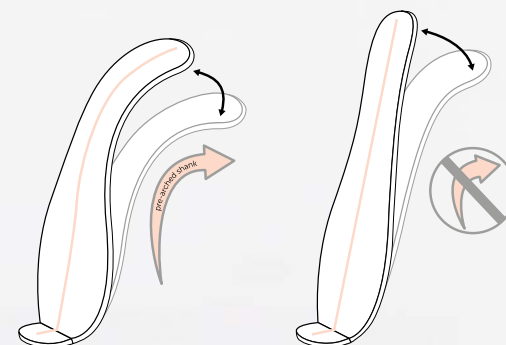

INNOVATIVE SHANK CONSTRUCTION

Flexible and supportive shanks suitable for any technique level. Long lasting performance.

High-tech cast-in insole and platform, made of non-toxic thermoformable lightweight material, is adjustable to any foot arch and muscle strength.

Unique construction using high-tech materials provides longer life span.

READY-TO-WEAR

Do not hammer

Soften the box with fingers

Do not break the shank

ATTENTION!
INNOVATIVE POINTE SHOE MODELS ARE READY-TO-WEAR.
BREAKING IN THE SHANK WILL CAUSE DAMAGE OF THE SHOES.

PREPARATORY POINTE SHOES

Girls between the ages of 4–10 years wear soft ballet slippers to class. Generally, the transition to Pointe shoes is perceived to be painful for children.

The GRISHKO® Company specialists have developed a unique range of children's preparatory pointe shoes, which help children's feet to adapt gradually, step by step, without pain.

3 STEPS TO A DREAM

This line includes 3 models:

 to the feeling of pointe
 shoes

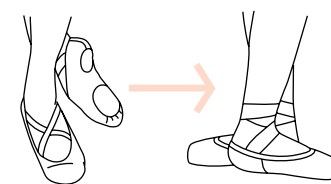

Exam

0512 Last type: 2007

0512E Last type: Elite (at request)

Allows the young dancer to get used to the shape and confinement of the toe box, with no stiffening materials in the sole. With 1/3 box length, this shoe will train the dancers foot properly by strengthening the forefoot of the dancer.

Sizes: 0,5 — 6,5
 Width: N — XXXX
 Shank: **No shank**
 Box: 1/3
 With elastic drawstring

Alice

Last type: 2007
 Shape: Slightly tapered,
 Soft box
 Platform: Medium
 Vamp: U-cut, Medium
 Sole: Machine-stitched

2nd STEP

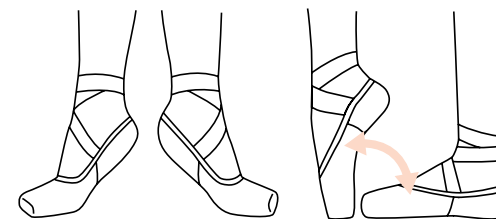

Trains the arch of the foot. Transitional model between Exam and Novice. Ideal for pre-pointe classes at the barre.

Alice

0526 Last type: 2007

A unique construction of the 1/2 box length will support a dancer at the barre while rising en pointe, slight but efficient support is created by the flexible super soft or soft shank. Flannel like insole.

Sizes: 0,5 — 7,5
 Width: N — XXXX
 Shank: SS, S
 Box: 1/2

Novice

Last type: 2007
 Shape: Slightly tapered
 Platform: Medium
 Vamp: U-cut, Medium
 Sole: Machine-stitched

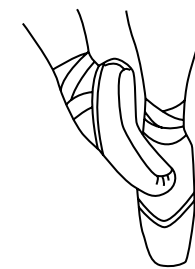

3rd STEP

Ideal as the first pointe shoe for advancing beginners. Easy roll-through and softer box.

Novice 0511

Novice is the "First Pointe Shoe" for advancing beginners. Softer than other models, yet supportive. This model features a softer 2/3 box length, and very pliable shanks. Allows easily roll-through demi pointe and perform center exercises.

Sizes: 2 – 7,5
 Width: N – XXXXX
 Shank: SS, S, M
 Box: 2/3

POINTE SHOES BASED ON FOUETTE LAST

Fouette last is developed with consideration of anatomic features of the high arch and fuller tapered foot. Usually, it's Egyptian or Greek type of foot, but in wider width XXXX — XXXXX can be suitable for Roman type. Fouette is the implementation of a classic pointe shoe form — tapered and elegant.

Tamara

- Platform: Medium
Vamp: Soft V-cut, Medium
Sole: Machine-stitched
Wings: High
- Elasticated binding
 - Easy roll-through
 - Miracle paste
 - Shank reinforcement through center of the insole

Tamara
0546

Thanks to its construction, this model offers a pliable yet consistent, supportive shank that forms perfectly to any dancer’s arch. The shank is 5 mm shorter in comparison to the Maya model which provides a perfect fit.

The sides are all 5 mm lower when compared to the Maya style. This improved design offers:

- a smooth appearance even en-pointe position, provided by the heel counter which securely hugs the heel,
- a more streamlined fit.

Our incredibly soft microfiber lining adds additional comfort and prevents the shoe from sliding off the foot.

The use of our Miracle glue in the box and wings, offers extreme flexibility and allows these parts to be easily adapted by hand. This innovative paste works equally well in cold, warm and humid climates.

Elasticated binding provides a snug, secure fit.

Size: 2 — 9
Width: X — XXXXX
Shank: H, R, RH

Introducing the “Tamara” Pointe Shoe
Inspired by love and perfected by design. Crafted by Nikolay Grishko’s world renowned factories, this latest innovation pays tribute to his adored wife of 40 years, Tamara Grishko, designed for dancers aiming to highlight their arches, and achieve impeccable balance.

Fouette Last — Built for compressible feet, Higher crown, medium platform, Forced V-Vamp, Elasticated Binding, Shank reinforcement through center of the insole, Easy roll-through, Miracle paste.

What’s New in Tamara? – Improvements from Maya I

Upper Design
- Reinforced vamp prevents spillage forward (on flexible feet). Fouette last is tilted forward, therefore we needed a reinforcement.
- Double satin heel offers smooth look, stable and snug fit.
- Outcome: Sleek and streamlined fit, improved agility, and poise.

Binding Upgrade
- Transitioned from elastic drawstring to Elasticated Binding for a clean, snug finish.

Side Adjustments
- Lowered by 5mm from Maya I specifications for a sleek appearance, accentuating the arch.

Shank Makeover
- 5 mm shorter for a closer arch fit. Making the shanks true 2/3 length.
- Enhanced flexibility with robust arch support. Shanks are made from leatherboard and other materials that will be longer lasting and the added arch support will prevent the shoe from breaking low.

Insole Upgrades
- Transitioned to a microfiber insole to help with foot sliding in the shoe.

Box Innovations
- Employed improved, thermoplastic Miracle paste.
- Redesigned wings for superior fit and durability by adding an additional layer for the wings.

Shanks offered Tamara offers three hardness levels:
H Optimal flexibility and durability. Shank should feel a little stronger than StreamPointe H.
R Enhanced flexibility with reinforced support. Shank should feel close to 3007 M.
RH Ultimate strength, ideal for those needing additional arch support. Shanks should feel like a 3007 H but with enhanced flexibility and durability.

Quality Assurance
We’ve addressed and rectified previous design concerns from the Maya I model, ensuring premium quality with each Tamara shoe. This is the first model of Pointe shoes where a shoe constructor and pointe shoe technologists worked together on creating a masterpiece.

Conclusion The Tamara pointe shoe is a fusion of professional contemporary design, unparalleled quality, and functionality, tailored for every dancer, from novices to professionals. This model is built for compressible strong feet that are tapered or taper when squeezed.

Triumph

- Platform: Wide
Vamp: U-cut, Medium
Sole: Hand-stitched
Wings: High

 - Turnshoe stitching
 - Ideal for “fuller” feet
 - Classic model for medium length toes
 - Lightweight elastic paste

Triumph 0519
Elegant shape that fits high arch with traditional hand-stitched natural leather outsole.

Triumph PRO 0519/1
For noise reduction we added “silent knot” technology to the basic model.

Size: 0,5 — 8.5
Width: X — XXXXX
Shank: SS, S, M, H, SH (at request)

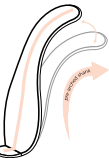

SuperTriumph

- Platform: Wide
Vamp: U-cut, Medium
Sole: Hand-stitched
Wings: High

 - Pre-arched thermoformable insole
 - Long lasting shank
 - Lightweight elastic paste

SuperTriumph Pre-arched 0536
Innovative model that gives flexibility and resilient support to your foot. The pre-arched shank gives extra comfort and support to the heel, especially if ballerina has high arch.

Size: 0,5 — 8.5
Width: X — XXXXX
Shank: S, M, H, SH (at request)

POINTE SHOES BASED ON SMARTPOINTE LAST

The current changes in foot shapes around the globe have led to the design of our newest last. The SmartPointe last features lower crown, broader metatarsal area and narrow heel. Broad platform with elegant taper and perfect stability. This last was built upon dancers’ and fitters’ feedback over the last decade to fit the modern day foot.

- Lower heel

NeoPointe 0545

NeoPointe epitomizes softness inside and out. This uniquely soft pointe shoe model has the most pliable shank ever, featuring our FLEX technology combined with our Easy Roll-Through technology. The box has been shortened to 2/3 length, allowing the shoe to offer unsurpassed comfort during roll-through from demi-pointe to an en pointe position. Our incredibly soft microfiber lining and new extra special padding within the box add additional comfort and minimize toe pressure. By using our Miracle glue in the box and wings, the shoe adapts to the dancer's feet, allowing consistent support in the metatarsal area yet staying flexible at the same time for a greater variety of movements. The adaptable crown and streamlined cut make this model a wonderful choice for dancers of all levels.

H is Flexible and supportive shank is perfect for en-pointe work in classic ballet

R is a combination of both classic and new technologies, which gives the proper support and easy roll-through

Size: 2,5 — 9 (0,5 — 2 at request)

- Sleek but wide

 Vegan option NOT available

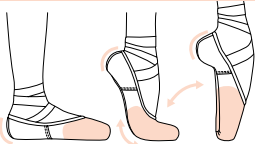

SmartPointe 0537

Classic shank construction with easy roll-through.

 SmartPointe has unique elastic glue that adapts to the dancers' foot but stays flexible. The box will mold to the dancer's foot shape over time with wear, but can also be adjusted during the initial fitting by hand.

EASY ROLL-THROUGH

Size: 0,5 — 9
Width: X — XXXXXX (only size 3–9 in XXXXXX)
Shank: SS, S, M, H, SH (at request)

StreamPointe

Platform: Wide
Vamp: Soft V-cut, Medium
Sole: Machine-stitched
Wings: High

- Elasticated binding
- Broad metatarsal area
- Pliable shank
- Low sides and heel
- Streamlined fit
- Adaptable crown

StreamPointe 0541

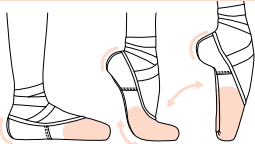

Classic shank with easy roll-through. Elasticated binding further improves this new model, by providing a streamlined fit for dancers with shallow and square foot shapes. Pliable yet supportive shanks follow any arch height. Extreme flat platform will allow the dancer stability, and secure balance.

Reinforced shank

R — the hardest shank in StreamPointe. It is similar to Medium strength 3007, which is much less flexible and lasts longer. Reinforced shank is ideal for those, who need a little bit of extra support.

EASY ROLL-THROUGH

Size: 1 — 9,5
Width: X — XXXXXX (only size 3–9 in XXXXXX)
Shank: S, M, H, R

StarPointe

POINTE SHOES BASED ON VICTORY LAST

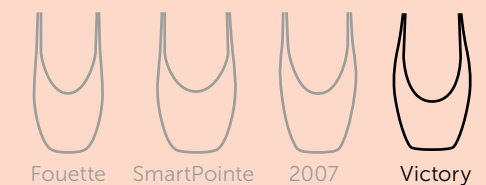

This unique yet extremely versatile last was created as an improvement to the iconic Elite last. This new last features an elegant faux taper that fits all foot shapes — Egyptian, Grecian and Roman. The Victory last has a broad platform for a perfect secure balance. This last was created for feet with a low to medium arch but also works for high arch. The U shaped vamp has a medium throat along with low sides and heel to showcase the dancer's feet.

Vamp: U-cut, Medium

Sole: Machine-stitched

Wings: High
- Broadest platform
 - Generous box
 - Elasticated binding
 - Lux inner-lining
 - Easy roll-through

Victory 0542

The wide box and extra internal space created by the faux taper make this model excellent for all foot shapes. Elasticated binding eliminates the need for a drawstring while the microfiber heel counter securely hugs the heel and prevents the shoe from slipping off. With a natural shank with easy roll-through and a brush of our Miracle paste on it's high wings, this model is very supportive while still allowing for easy demi-pointe. This instant best seller is humid climate resistant and long lasting. Victory is a must-have for your store's pointe shoe repertoire. Due to the high wing construction, this model is to be manipulated through the 3/4 area of the shank during the fitting, or broken in naturally by the heat of the foot.

Victory FLEX 0542

Flex shank for dancers who need pliable shank for easy demi-pointe elements. This model hugs the dancer's arch to perfection.

ANTIBACTERIAL BOX & SOLE
Silver nano technology treatment of the inner lining.

SOFT BALLET SHOES

Soft ballet shoes seem simple, but that's only an illusion. For the majority of a dancer's career, they will be training in ballet flats, and finding a perfect shoe can be challenging. We've created different styles to work for dancers of every level and feet form.

VEGAN

We use canvas, stretch canvas, leather, or satin to offer dancers the choice they deserve. The outsole is usually suede, but we can replace it with the cruelty-free VEGAN option on request in split sole models.

HOW TO CHOOSE

Soft ballet shoes require the same accurate fitting as pointe shoes do. Ballet flats underline the feet, protect them and support the way it's needed if they follow the shape perfectly and their features meet the dancer's needs.

Soft pleats and binding make it easy to fit soft ballet shoes to different feet forms, yet the toe lengths vary and requires different vamps. The arch and feet strength also matter, therefore we created this chart to assist you in choosing the soft ballet shoes of your DREAM.

FEET STRENGTH \ ARCH	FEET FORM	
	LONG TOES	SHORT TOES
HIGH	Model 10 Synergy DreamStretch DreamStretch 10	Performance Synergy DreamStretch (Low cut) X-Stretch
MEDIUM	LittleStar Synergy DreamStretch DreamStretch 10 X-Stretch	Performance DreamStretch (Low cut) X-Stretch
LOW	LittleStar Performance DreamStretch (Low cut) X-Stretch	Performance DreamStretch (Low cut) X-Stretch

LYRICAL SHOES

GRISHKO® Gymnastics half-soles, or as we also refer to them as "turner shoes" have been tested and perfected over the years by some of the top gymnasts in the world as well as now being worn by the top contemporary dancers in the United States.

MATERIALS AND PROPERTIES

GENUINE LEATHER

Used to make the sole and the upper of the shoe. Breathable material. Adapts to the foot shape.

MICROFIBER (artificial leather)

Provides sufficient floor grip. Allows the skin to breathe. Long-lasting material.

CANVAS (100% cotton)

A breathable and hypo-allergenic type of natural fabric which can be easily dyed.

CALICO (100% cotton)

An extra thin type of fabric for proper fit.

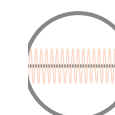

TERRY FABRIC (100% cotton)

Ensures dry skin and protects the foot.

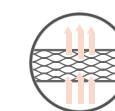

NON-SLIP SILICON

The shoes straps are covered with special non-slip silicon to ensure that the shoes fit perfectly even when performing complex movements.

FLAT SEAM

The sole and the upper are sewn together in such a way as to ensure that the seam is flat and even highly sensitive foot is guaranteed exceptional comfort.

ELASTIC YARN THREAD (Polyamide)

Special type of elastic yarn used for sewing ensures that the shoe perfectly matches the shape of the foot.

ELASTICATED BINDING

Due to elasticated binding the shoe securely hugs the foot and offers considerable comfort.

Dream-Turner

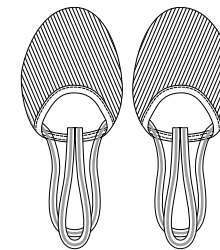

Long lasting four way stretch canvas that is strong and resilient with a shock absorbing padded insole and terry lining. Flat seams, full microfiber outsole and unique pleat-less construction offers comfort, durability and the best look to any foot on stage or rehearsal.

Pointe shoe dryers

0559
Color: ● Pink
Filler: Silica Gel

This is something every fitter should offer with every pair of pointe shoes. These little helpers work wonders, eliminating the smell and pulling moisture right out of used pointe shoes. Our dryers add at least 30% lifespan to the box of your dancers pointe shoes. They must be replaced every three months for best results.

DIY Adjust the form of caps to the required size with the help of scissors.

CLASSICAL RIBBONS

Classical satin and cotton ribbons for dancers of all levels. Tightly secure the pointe shoe on the foot, provide maximum support.

Satin ribbon

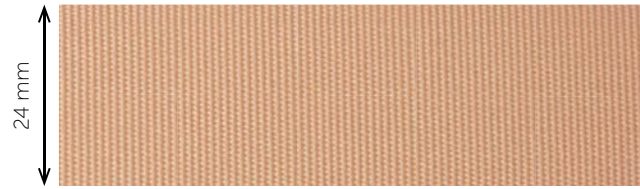

0510/9 **0510/9R**
Width: 24 mm Roll of 50 m
Pack of 2 m
Color: ● Ballet Pink ● Dark Nude

Satin ribbon of white, black, ballet pink colors to match pointe shoes. Classic look with a light sheer.

Cotton ribbon

0510/1 **0510/1R**
Width: 24 mm Roll of 50 m
Pack of 2 m
Color: ● Ballet Pink

Cotton-like ribbon as matte surface prevents the ribbon from sliding off and grants a classic look.

Satin ribbon with silicone

0002/6 **0002/6R**
Width: 25 mm Roll of 50 m
Pack of 2 m
Color: ● Ballet Pink

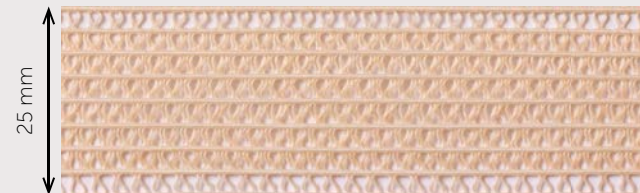

Satin ribbon with silicone is perfect for dancing without tights as silicone securely fixes the ribbon on naked skin.

ELASTICS

Elastics are usually used in addition to ribbons to provide flexible fixing of pointe shoes on the feet. Some professional dancers use only elastics to fix their pointe shoes and create a contemporary look.

Mesh elastic

0002/3 **0002/3R**
Width: 25 mm Roll of 25 m
Pack of 1 m
Color: ● Ballet Pink

Mesh elastic for those who prefer flexible fixing of the arch and ankle. Match the color of pointe shoes and theatrical pink ballet tights.

HYBRID RIBBONS

A perfect balance that gives you enough support but allows a greater range of movement.

Satin ribbon with pre-sewn elastic

0510/4
Width: 24 mm
Pack of 2.2 m (4 x 60 cm)
Color: ● Ballet Pink

Satin ribbon with pre-sewn mesh elastic

0510/3
Width: 24 mm
Pack of 2.2 m (4 x 60 cm)
Color: ● Ballet Pink

Features elastic inserts that are placed on the Achilles tendon. The inserts reduce pressure on this sensitive area and help prevent tendonitis. A bestseller that combines the flexibility of mesh / elastic mesh and the classic look of satin ribbons.

Transparent mesh elastic

0002/2 **0002/2R**
Width: 28 mm Roll of 25 m
Pack of 1 m
Color: ○ White

Grants a flexible fixing, being almost invisible even on the naked skin. Choose between transparent and nude to match the color of pointe shoes and tights.

ELASTICIZED RIBBON

Maximum flexibility that allows natural flexion of your heel and ankle.

Elasticized ribbon

0002/7 **0002/7R**
Width: 25 mm Roll of 50 m
Pack of 2 m
Color: ● Ballet Pink

The elasticized ribbon feels very comfortable while dancing.

Elastic

0002/1 **0002/1R**
Width: 13 mm Roll of 20 m
Pack of 1 m
Color: ● Ballet Pink ○ White ● Black ● Tan

Best option for soft ballet shoes and contemporary dance.

Moleskin toe pads

1020
Size: S, M, L, XL
Color: ● Light Pink

Supportive and soft toe pads for the best possible fit and comfort. The extra-thin design allows dancers to feel the floor while preventing blisters and corns. This innovative pad is adjustable in length, just cut them down to your dancers foot.

Perforated silicone toe pads

HOW TO CHOOSE

REMEMBER!
No space should be left between the pointe shoe inserts and toes, and inserts should always cover bunions. The comfort in the box depends on correctly fitted pointe shoes and pads.

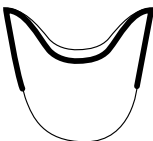

SILICONE TOE PADS

Made of medical silicone to protect foot: thick in the bottom, thin on the toes.

ART. 1009A

ART. 1009B

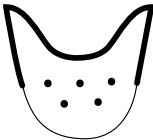

ART. 1006

PERFORATED SILICONE TOE PADS

Microperforation makes these pads breathable.

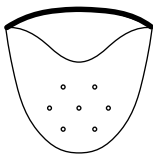

ART. 1010A

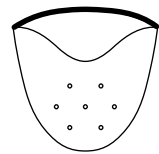

ART. 1010B

MOLESKIN TOE PADS

Extremely thin with a soft-to-touch moleskin upper lining these toe pads will fit your foot like a glove, providing unsurpassed comfort.

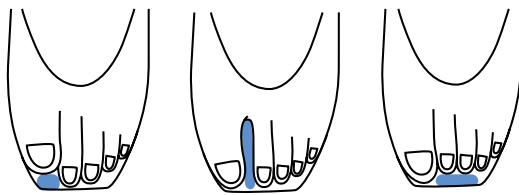

ART. 1020

ART. 1020

MINI SILICONE TOE PADS

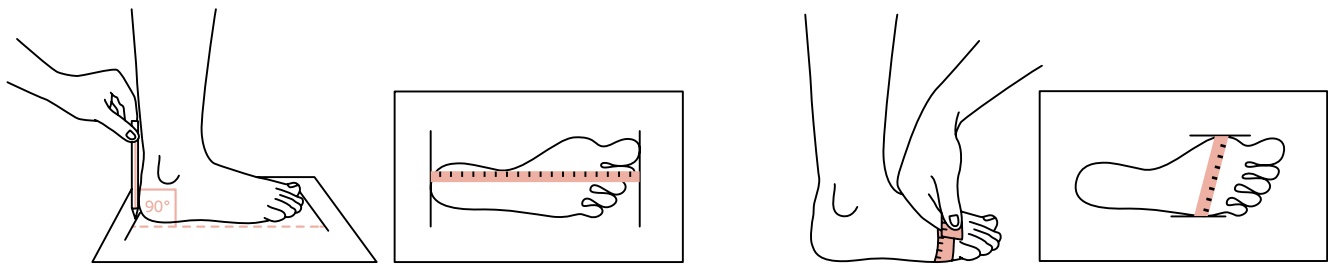

Can be used on their own or in addition to any other pads above. Use one or two mini silicone pads to separate toes when needed, and remember they have different sizes that allow ballerinas to combine them different ways. Strongly recommended if there is large space between toes.

ART. 1007

HOW TO FIND YOUR RIGHT SIZE

- How to measure and identify GRISHKO® pointe shoe size:
- 1) Take a piece of A4 paper and put ballerinas' foot on it, draw the contour of the foot with a pencil; the pencil should be held under an angle of 90° (perpendicularly). Draw and measure the left and right foot, as they can differ.
 - 2) Measure the distance from the heel to the endpoint of the toe (in mm);
 - 3) Find the result of the measurements in the table. In case the measurement in between two sizes, we recommend taking a bigger one, as pads and tights also have a certain thickness.

How to choose the width

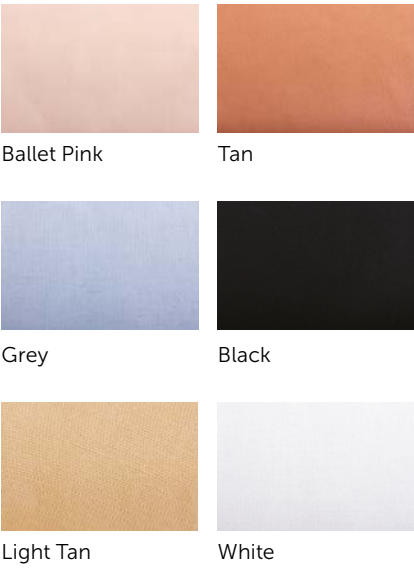

GRISHKO® offers pointe shoes in 7 different widths:
N – for extremely narrow feet
X – for narrow feet
XX and XXX – for medium feet
XXXX – for wide feet
XXXXX-XXXXXX – for super wide feet

Measure your foot at its widest place (where the bunions are) to identify the required width the pointe shoes. Relate the result to the table data and identify your width. It is recommended to choose a width that provides a firm and painless fit. If you notice wrinkles on the fabric and gaps between the shoe and the foot, it means you need less width.
